

Fire Safety Assessment

Qualified Accreditation

Fire Safety Assessor

QUALIFIED PATHWAY I

Fire Safety Assessor - QUALIFIED PATHWAY I

Thank you for your interest in pursuing training with Axiom Compliance Learning. Our course is designed to assist individuals in obtaining the Fire Safety Assessment Qualified Accreditation by covering the four competency units required for all twenty nine Fire Safety Measures under Pathway I. Specific to the minimum entry-level qualification of a Certificate or higher

Please note additional competency units may be required, specific to the fire safety measures you are applying for. Our team at Axiom Compliance is well-equipped to provide you with the necessary assistance and support, to design a tailored training plan that caters for all fire safety measures.

Fire Safety Measures with Minimum Entry-Level Qualification of Certificate II;

- Access panels, doors & hoppers to fire-resisting shafts
- Automatic fail-safe devices
- Diploma and above
- Division 7 miscellaneous fire safety offences
- Emergency Lifts
- Emergency lighting
- Emergency warning & intercommunication systems
- Exit Signs
- Fire alarm monitoring
- Fire control centres & rooms
- Fire dampers
- Fire doors
- Fire hose reel systems
- Fire hydrant systems (Level 1)
- Fire seals protecting openings in fire-resisting components of the building
- Fire shutters
- Fire windows
- Lightweight construction
- Perimeter vehicle access for emergency vehicles
- Portable fire extinguishers
- Safety curtains in proscenium openings
- Smoke alarms & heat alarms
- Smoke detectors & heat detectors
- Smoke doors
- Solid core doors
- Standby power systems
- Wall-wetting sprinkler & drencher systems
- Warning & operational signs
- Emergency planning

To pursue **Fire Safety Assessment Qualified Accreditation Pathway I** in any or all the 29 fire safety measures specific to the minimum entry level of a Certificate II or higher, it is required to complete all the following competency units common to all measures;

(Additional competency units are required for some specific fire safety measures)

- **PUAFIR403** Assess building plans
- **PUAFIR507** Inspect building fire safety systems
- **BSBOPS304** Deliver and monitor a service to customers
- **CPPFES2004** Identify & report on types of installed fire safety equipment & systems
(This unit may be required if the student hasn't completed the Certificate II Fire Protection Inspection and testing.)

Please note that it is essential to understand that achieving Fire Safety Assessment Qualified Accreditation involves meeting additional criteria beyond completing the required training units. These criteria include experience prerequisites, obtaining insurance coverage, and undergoing an evaluation by FPAA. Additional competency units are also required for some specific fire safety measures; the Axiom Compliance team can help with this training and design a training plan for you

Fire Safety Assessor - QUALIFIED PATHWAY I

TRAINING RECOGNITION

The training units provided by Axiom Compliance Learning are nationally accredited and follow the national vocational education and training standards regulated by the Australian Skills Quality Authority (ASQA). This means that employers, industry bodies, licensing, and other relevant organisations throughout Australia recognise the quality of the training. When learners successfully complete a nationally accredited training course, they are awarded a nationally recognised qualification or statement of attainment that confirms their competency in a specific field of study.

PROGRAM OUTLINE

Two-day - Virtual Classroom (online with a live trainer).

A virtual classroom is a digital platform designed for learning that employs a delivery format such as Zoom. Here, a live trainer facilitates online training sessions, focusing on critical course content and guiding students on how to navigate through the program.

This medium enables real-time engagement through audio and video communication, allowing trainers to interact with their students as they participate in learning and assessment activities.

In addition to the live sessions, this program provides self-paced online learning, where students research, prepare and submit their assessments via the Learning Management System (LMS). Students will undertake personal study and develop fire system assessments using templates and available resources based on genuine work performances for evaluation purposes. Students' tasks require them to develop various documents, and service reports, with outcomes commonly found in the industry.

Students will complete knowledge tests at different intervals corresponding to the covered subjects. To research the answers, students can refer to the course training materials, notes, and other relevant references.

The training is structured in a logical sequence to enable a step-by-step learning process. The activities are presented in a clear manner. They are directly linked to the course and industry information, allowing assessors to ascertain that students can competently apply their knowledge and skills.

The duration of the course is flexible, with students having up to 6 months to complete it. The more time students dedicate to the online learning component, the faster they can work through the content and assessment tasks.

To assist students in their learning journey, Axiom Compliance Learning offers the expertise of highly skilled and motivated trainers and assessors with current industry experience. These professionals create an interactive, engaging, and supportive learning environment to facilitate learning. Additionally, the student management team is readily available to assist with questions and offer support with online coursework, ensuring that students receive the necessary guidance to succeed in their studies.

COMPUTER SKILLS

Students need to be able to use common office programs such as Microsoft Word, Excel and Web browsers.

Fire Safety Assessor - QUALIFIED PATHWAY I

COURSE FEE:

\$1450 excl. GST on accredited training

To enrol go to axiomcompliancelearning.com.au choose training dates, choose the preferred date and enrol or call our team we can complete your enrolment over the phone.

AFTER ENROLMENT

- After enrolling online, we will contact the student to discuss their suitability for training.
- Enrolment confirmation will be emailed, including the invoice.
- Following the receipt of payment, we email the login details to start your course with the online component.
- When students have logged into our online learning platform, they can access course documentation, instructions, templates & resources; students are ready to begin the course.
- Students will receive a Zoom link via email for the virtual classroom two days before the training.

CPD points required by FPAS-accredited practitioners can be achieved through this training.

STUDENT INFORMATION

We offer an in-depth Student Handbook, which is provided along with your enrolment confirmation, that includes essential information.

Before enrolling, you can access the handbook on our website to review important details about your rights and responsibilities, including but not limited to your entitlement to privacy, a secure training environment, and the ability to file a complaint or appeal an assessment decision. We encourage all students to take advantage of the opportunity to review this essential information carefully.

For any further assistance, call; we're here to help.
