Face to Face or Online Zoom $363inc
Axiom Compliance Learning
Testing and Inspecting Electrical Equipment Standard Test and Tag

Work health and safety legislation requires all electrical plugin equipment in the workplace to be inspected and tested by a competent person. Inspection and testing of electrical equipment, commonly called (Test & Tag).

After completing this training, the student will have the required skills and knowledge to inspect, test, and tag extension leads, power tools, portable RCD's and all electrical equipment commonly found in the workplace.

With the ongoing cost of compliance to businesses, a person who has this skill set is a valuable employee in the workplace.

It is essential to Axiom Compliance Learning to provide quality training and a reduced risk for COVID-19 virus.

We have developed training resources such as online course documentation, interactive templates, procedural and instruction videos.

Additional to the online component of the course, the student is scheduled for online training time with their trainer and classmates, participating via their computer or phone using the zoom platform, or face to face.

The trainer can be emailed or contacted outside of scheduled training to assist the students.

Training sessions are limited to 6 students to facilitate quality training.

3 months to complete from the training date.

Extension available for $100- 2months
