

# BSB50920 - Diploma of Quality Auditing

**Customised for  
Fire Safety  
Assessors**

# *BSB50920 - Diploma of Quality Auditing*

Thank you for your interest in pursuing training with Axiom Compliance Learning.

The Diploma in Quality Auditing is customised for fire safety assessors, additionally, it comprises the four mandatory units needed for the Pathway II, FSA Qualified application.

A fresh industry standard will be created by combining auditing with a qualified fire technician's industry knowledge and experience to assess fire safety measures. Assessors will produce reports following guidelines and criteria for auditing compliance against benchmarks specified in relevant codes, regulations, and Australian Standards.

## **LICENSING/REGULATORY INFORMATION**

In this field, it is crucial for all work to adhere to applicable legislation and industry standards. Regulatory mechanisms differ between states and territories, so students should confirm any regulatory limitations that may apply to this qualification in their specific location.

By staying informed about regulatory requirements and industry standards, technicians can ensure that they provide the best possible service while also complying with regulations and promoting safety.

## **TRAINING RECOGNITION**

The training units provided by Axiom Compliance Learning are national accreditation and are in accordance with the national vocational education and training standards regulated by the Australian Skills Quality Authority (ASQA). This means that employers, industry bodies, licensing, and other relevant organisations throughout Australia recognise the quality of the training. When learners successfully complete a nationally accredited training course, they are awarded a nationally recognised qualification or statement of attainment that confirms their competency in a specific field of study.

## **PROGRAM OUTLINE**

Blended Learning - (also known as hybrid learning is a method of teaching that integrates technology online learning with traditional instructor-led face-to-face activities with on-the-job tasks.

## **VIRTUAL CLASSROOM**

Virtual Classroom (online with a live trainer) has two training blocks - four days and two days. A virtual classroom is a digital platform designed for learning that employs a delivery format such as Zoom. Here, a live trainer facilitates online training sessions, focusing on critical course content and guiding students on how to navigate through the program. In addition, this medium enables real-time engagement through audio and video communication, allowing trainers to interact with their students as they participate in learning and assessment activities.

In addition to the virtual classroom sessions, this program provides self-paced online learning, where students research, prepare and submit their assessments via the Learning Management System (LMS). Students will undertake personal study and develop fire system assessments using templates and available resources based on actual work performances for evaluation purposes. Students' tasks require them to develop various documents, and service reports, with outcomes commonly found in the industry.

## **ON-THE-JOB TASKS**

Students' on-the-job tasks require them to develop various documents, service reports, and outcomes found in the industry.

The training is structured in a logical sequence to enable a step-by-step learning process. The activities are presented in a clear manner. They are directly linked to the course and industry information, allowing assessors to ascertain that students can competently apply their knowledge and skills.

The duration of the course is flexible, with students having up to 18 months to complete it. The more time students dedicate to the online learning component and on-the-job tasks, the faster they can work through the content and assessment tasks.

To assist students in their learning journey, Axiom Compliance Learning offers the expertise of highly skilled and motivated trainers and assessors with current industry experience.

These professionals create an interactive, engaging, and supportive learning environment to facilitate learning. Additionally, the student management team is readily available to assist with questions and offer support with online coursework, ensuring that students receive the necessary guidance to succeed in their studies.

## **COMPUTER SKILLS**

Students need to be able to use common office programs such as Microsoft Word, Excel and Web browsers.

## **COURSE FEE**

\$5800 excl. GST on accredited training

To enrol go to [axiomcompliancelearning.com.au](http://axiomcompliancelearning.com.au) choose training dates, choose the preferred date and enrol or call our team we can complete your enrolment over the phone.

Talk to our team to develop a training plan.
