### Program Outline and Assessments

The course will be delivered using online workbooks, assessments, interactive templates and an online classroom session. The professionally presented reference material and resources help students develop their knowledge of the subjects. Training is sequenced to allow a logical progression.

The activities are clearly explained and always relate to the course and industry information, allowing the assessor to ensure that students can apply their knowledge and skills.

### Course requirements

**Tasks:** Students will undertake a range of tasks that will require the creation of various documents, reports, and outcomes typical in the industry.

**Written Reports:** Using templates and available resources, students will produce a range of written service records based on real testing and inspections for assessment.

**Knowledge Test:** Students will undertake knowledge tests throughout their study— progressively as subjects are covered, completion of tests is required. Students may research the answers from the course training materials and notes, and relevant references.

**3 months** to complete from commencement date

**Extension** available for x2 months \$100

### Support

- Training coordinators are available to support the student with-
  - Login details, training resources, submissions
  - Assistance with online tutorials and quizzes
  - Assistance with assessment tasks

### Completion

**Successful completion:** Students will receive a record of results and a Statement of Attainment.

**CPD** points required by FPAS accredited practitioners can be achieved through this training. Nominal hours=110
